

**Remarks**

In the Office Action mailed on October 14, 2005, the claims pending in the application were allowed and the drawings filed on February 2, 2004, and August 3, 2005, were accepted by the Examiner.

The specification of the application was objected to for failing to describe the new drawing figures 13 and 14.

Submitted herewith is a substitute specification and a marked-up copy of the original specification showing the addition of descriptions of figures 13 and 14 to the Brief Description of the Drawings, and adding references to figures 13 and 14 to the application specification. It is respectfully submitted that with the submission of the substitute specification, the objections to the specification have been overcome, and the application is in condition for allowance.

Respectfully submitted,

**Thompson Coburn LLP**
